Practice Problem A

Word Reversal

Input: word.in

For each list of words, print a line with each word reversed without changing the order of the words. Each word consists of English letters only.

Input

The input consists of T test cases. The number of test cases (T) is given in the first line of the input file. Each test case consists of a single line: each line contains a list of words separated by one space.

Output

For each test case, print the output on one line.

Sample Input (word.in)

Output for the Sample Input

2 I am happy today We want to win the first prize	I ma yppah yadot eW tnaw ot niw eht tsrif ezipr
